## 16<sup>th</sup> European Conference on Information Systems

*"Information Systems in an Innovative Knowledge-based Society"*

The European Conference on Information Systems (ECIS) is the largest and most prestigious Information Systems (IS) conference in Europe, and is the sister conference to the International Conference on Information Systems (ICIS). ECIS is held each year in a different European country, with contributions from worldwide Information Systems researchers.

The Business Information Systems Group at the National University of Ireland, Galway is proud to organise and host the 16th European Conference on Information Systems.

As in previous years, the conference will be organised around the conference tracks specified here, focusing on both established and emergent areas of IS research.

### Conference Details

Other information including detailed track information, in addition to dates for paper calls, conference paper submissions, and submissions to the doctoral consortium will be posted on the conference web: [www.ecis2008.ie](http://www.ecis2008.ie)

## About Business Information Systems at NUI Galway

The Business Information Systems Group at the National University of Ireland, Galway comprises 12 permanent staff, with active research in Innovation, Knowledge Management, Systems Development, Decision Support, e-Government, Interaction Design, e-Commerce Strategy, Systems Analysis, Datamining, e-Learning and other topics. The group is a subset of the Department of Accountancy & Finance, which is a part of the J.E. Cairnes Graduate School of Business and Public Policy.

## Galway City

The conference will take place in the University campus located in the centre of Galway, a city on the beautiful west coast of Ireland and at the gateway to Connemara.

A spectacularly beautiful county, Galway is a medley of contrasts - the wildest and remotest of countryside teamed with one of Europe's most vibrant and popular cities. Drawn as if by a magnet, visitors come again and again, captivated by this most special of Irish counties.

Galway City at the mouth of Galway Bay is both a picturesque and lively city with a wonderful avant-garde culture and a fascinating mixture of locally owned, speciality shops, often featuring locally made crafts. It has changed considerably over the last number of years and features a fascinating juxtaposition of new and ancient architecture. The centre of the city is conveniently compact enough to ramble around and explore.
